Article 2. Franklin Flanders reported that the recommendation of the Finance Committee was to raise the sum of \$18,500.00 to defray town charges for the ensuing year. No discussion. Vote in the affirmative.

Article 3. Guy Eaton was nominated. It was voted that the Clerk cast one ballot for Guy Eaton for Trustee of the Trust Funds for three years. Vote was unanimous.

Article 4. Voted the Clerk cast one vote for Helen Dearborn for Trustee of the Library for three years. Vote was unanimous and Helen Dearborn was elected Trustee.

Article 5. J. Hardy Legge moved that the collection of taxes be left with the Selectmen. Motion seconded, no discussion. Vote in the affirmative.

Article 6. Mrs. Paula A. Sawyer moved that the same discount of last year (2%) be allowed. No discussion. Motion seconded and the vote was in the affirmative.

Article 7. Mr. Legge moved that the Selectmen and Town Treasurer be authorized to borrow money on behalf of the town as they find necessary and to issue notice thereon, in the name of the Town, at such rate of interest and payable at such time and place within one year as the Selectmen may decide. Motion seconded and it was a vote in the affirmative.

Article 8. Finance Committee recommended \$18,000.00. Much discussion. Mr. Legge made a motion and it was supported that the sum of \$20,000.00 be raised since the town machinery had to be repaired and the new items had to be paid for, bridges had to be repaired, etc. Lyhl Perrigo speaking in behalf of the Finance Committee—said that Bernard Phelps, Jr. asked for an extra \$2,000 last year which was granted but that it had not been used for that purpose, that he had said. After lengthy discussion, it was put to a vote; In favor of raising \$20,000.00: 50 votes cast, opposed 22. Motion carried the town raised \$20,000.00.

Article 9. Finance Committee recommended the sum of \$1,407.05 as stated, be raised with the sum of \$9,380.36 to be furnished by the State for Class IV and

Class V construction. Motion made and seconded. Vote in the affirmative.

Article 10. Gordon A. Russell reported recommendation of Finance Committee \$100.00 be raised to have membership in the Merrimack Valley Region Association. Vote in the affirmative. No discussion.

Article 11. Finance Committee recommended the sum of \$1,000.00 be raised for Weare Police Department. Moved and supported and the vote was in the affirmative. No discussion.

Article 12. Finance Committee recommended the sum of \$4,000.00 to be raised for the Fire Department. This was made a motion and supported, the vote was in the affirmative. No discussion.

Article 13. Wilfred Lahey read Finance Committee recommendation of \$200.00 to be raised for the care of water holes, and Mr. Lahey made this a motion. It was supported and the vote was in the affirmative. No discussion.

Article 14. Motion made and seconded that the sum of \$300.00 be raised for the care of neglected cemeteries. Vote in the affirmative. No discussion.

Article 15. Gerald Hight reported that the Finance Committee recommended the sum of \$300.00 be raised for Band Concerts, moved and supported and vote in the affirmative. Charles Eastman then made an amendment. It was moved and supported that the sum of \$300.00 be raised and that one of the concerts will be held at South Weare, one at East Weare, if they wish to pay \$25.00 in addition to the concert. No discussion.

Article 16. Finance Committee recommended \$250.00. It was moved and supported that this amount be raised and appropriated for the Weare Library. Vote in the affirmative. No discussion.

Article 17. Finance Committee recommended \$200.00. It was moved and supported that this amount be raised for the observance of Memorial Day. Vote in the affirmative. No discussion.

Article 18. Wilfred Lahey reported that the Finance Committee's recommendation was that this article be

dismissed. This was made a motion, it was supported and the vote was in the affirmative. No discussion.

Article 19. The Finance Committee recommended the sum of \$500.00. There was much discussion on this problem, particularly involving Mrs. Morgan who reported that she felt as though she lived near an open sewer because of the present situation. Samuel Chase spoke at length of various ideas of the Water Pollution Board and their expectations. Finally it was moved and supported that the sum of \$750.00 be raised, that \$250.00 of this amount be earmarked for cutting the bushes along the wall in this location. It was a vote in the affirmative and so declared.

Article 20. It was moved and supported that this article be accepted as read and that a committee of three would be appointed to serve with the Selectmen in making these arrangements. Voted in the affirmative.

Article 21. Finance Committee recommended that we raise the \$291.00 asked for in the Article. Florence Flanders read a petition signed by all registered nurses in the town who were in favor of this Article. Moved and supported that we raise the amount for the support of the Concord Hospital and so voted in the affirmative.

Article 22. Gordon Russell read the Finance Committee's recommendation of \$3,500.00. Moved and supported that the Town pay the amount of \$3,500.00 to buy land and building of Weare Center School House. Vote in the affirmative. No discussion.

Article 23. Finance Committee's recommendation was to raise \$500.00 to install a new roof on the Library. It was moved and supported that this amount be raised. Vote in the affirmative.

Article 24. Lyle Perrigo reported that it is discussed at the Finance meeting—that all church yards should be plowed after heavy storms. It was moved and supported that the Town plow all yards of active churches after storms. Voted in the affirmative.

Article 25. Finance Committee reported that they considered this article of vital importance. They felt that East Weare residents should be given an oppor-

tunity to remain in the town if and when the flood control project takes place, should the residents losing their homes so desire. There was much discussion on this article. It was finally made a motion and seconded that a committee consisting of the Selectmen plus any members at random through the town be responsible to study the effect of the flood control project on the Town of Weare. Voted in the affirmative and so declared.

Article 26. Wilfred Lahey reported that the Finance Committee voted to dismiss this article. It was moved and supported to do so, and was a unanimous vote in the affirmative.

Article 27. Mr. Legge made the motion that the Selectmen should see that the Town has wood cut for its various needs for another year. It was moved and supported that at least fifty cords of wood should be cut as soon as possible. Vote in the affirmative.

Samuel Chase made the motion and it was supported that a new committee be appointed to have charge of the affairs at the Park at Lake Horace. Vote in the affirmative. No discussion.

Gordon Russell had been requested to bring up for discussion "the Weare Center School House"—how the town people felt towards leasing the building as a Legion Hall to the legion. If this was done Mr. Russell said it was the interest of the Organization to improve the building and grounds outside. There was a lengthy discussion on this as many felt that the building could serve as a meeting place for many worthwhile organized groups, such as Community Club, etc., but Mr. Russell said if the Legion leased it; it was to be for their use solely and not for every one else. Detailed discussion—It was finally moved and seconded that the town lease the school house to the Legion for the sum of \$1.00 per year for an indefinite period,—said lease to be terminated if and when the Legion ceases to use the building. Vote in the affirmative.

A rising vote of thanks was given to the Grange for their part in Article No. 20.

No more business, meeting adjourned at 4:15 P. M.

MINNIE T. PEASLEE,
Town Clerk.

Assisted by Olive G. Reade.

We have had an increase of accidents in the Town during the past year, (one) fatal and others very serious, not only in this town, but on the highways of America in 1956, human lives were sacrificed on the average of one every 13 minutes. The day-to-day senseless slaughter of an estimated 40,000 persons in traffic accidents last year—a new peak in motor fatalities—is indeed a blotch on our modern civilized society. Assuredly, the major blame for this shameful record must be attributed to the carelessness, negligence, and indifference to traffic laws on the part of motor vehicle operators.

No longer can we allow speeders and reckless drivers the false cloak of “petty offenders.” The cold statistics of accident losses in life and property stamp these road menaces as serious threats to community welfare.

Respectable citizens who would never think of violating other laws disregard traffic regulations repeatedly. Citizens who cherish their reputations, parents who devote time and attention to their children, and individuals who hold or strive for important positions in our society seemingly take an intermission from integrity when they get behind the wheel of a motor vehicle. The consequences frequently appear as black headlines concerning holiday tragedies and daily carnage on the highways.

Furthermore, the juvenile disrespect for law which so marks the present youth problem can be traced in many instances to the miserable examples of adult motorists who “beat the law” on the road or brag of outwitting a traffic officer.

It is certainly a travesty on law and order when so often the very traffic regulations enacted for the safety of citizens are held in public scorn as hindrances to freedom, restrictions on everyday life, and interference in the fast tempo of today’s pattern of living. Indicative of this perplexing but dangerous public attitude are the

wails of guilty motorists against the use of radar, unmarked patrol cars, and other police techniques designed to prevent drivers from destroying themselves and other fellowmen.

Too frequently the praiseworthy efforts of the Nation's police, traffic engineers and safety organizations are met with public indifference. Only the full support of the motoring public, aroused through educational campaigns or exacted by rigid enforcement of traffic laws, can stem the mechanized massacre on our highways.

The department wishes to thank all who have assisted in our work the past year.

Respectfully submitted,

CHESTER LOWE, Chief,
Weare Police Department.

To the Selectmen:

Each year there is a demand for a statement on forest fires for publication in the annual town report. It is believed they serve a good purpose locally in preventing fires. The following is offered with the respectful request for publication in your town report.

Sincerely,

WINTHROP HANNAFORD,
District Fire Chief.

Forest Fire Prevention is Everybody's Business

New Hampshire faces a continuing challenge in its forest fire problem—97 percent of all our forest fires being man-caused and preventable—a serious indictment of interest in our own welfare and that of our neighbor. Both the state and the towns are striving diligently to effectively meet the challenge through education of the public to the threat fire presents to our woodlands; by maintaining a well trained corps of wardens and deputy wardens in every community and by providing ample opportunity for all who wish to dispose of unwanted waste materials. Careless and perverseness, however, continue to be the big hurdles.

Thoughtlessly discarded lighted cigars, cigarettes and matches from moving vehicles, by hikers, hunters and fishermen; careless burning of debris during hazardous periods in dangerous locations; illegal burning; improperly extinguished debris, camp and cook fires—all result in serious loss of property disruption of industry and farm work and unnecessary expenditure of town and state funds.

To meet the challenge successfully, the state, your community and your local forest fire warden need YOUR thoughtful and cooperative effort—The rules are simple.

1. Don't burn at home—use your town dump and avoid all fire problems.
2. If you do burn, be sure to secure a written permit from your local forest fire warden when the ground is not covered with snow. Permits are required for open debris fires, home incinerators, outdoor fire places and camp fires. Your warden is instructed to permit burning if weather conditions, site and type of burning are safe.
3. Be sure that all lighted material—cigars, cigarettes and matches—are completely out before discarding them. Use ash trays in automobiles.
4. Make certain that your debris, camp and cook fires are completely out before leaving them.
5. Insist that others be careful and comply with burning requirements.
6. Call the warden promptly when fire is detected and aid him to extinguish it.

REMEMBER—the fire you prevent might be the one which could burn YOUR property.

REMEMBER FOREST FIRE PREVENTION is EVERYBODY'S BUSINESS and our MOST IMPORTANT UNDERTAKING.

1957 Forest fire record for your town

Number of fires 3; Acreage burned 3; Number of permits issued 120.

WILDER D. TENNEY,
Forest Fire Warden.

WINTHROP HANNAFORD
District Fire Chief

ANNUAL REPORT OF THE WEARE VOLUNTEER FIRE DEPARTMENT

The department answered 24 alarms during 1957. This is a substantial decrease from the average of fires per year. Except for one fire involving a large set of buildings, the fires were easily controlled and did little damage. It is hoped that this decrease in fires may continue and that fire prevention is really paying off. Building fires numbered 4, brush and grass fires 3, chimney fires 13, car fire 1, and 3 calls for assistance at out of town building fires.

In spite of an extremely dry spring and summer, grass and brush fires were few and kept to small size. Use great care with all outdoor fires and do not burn rubbish, brush, etc. without a permit from the forest fire warden.

As usual most of the building fires started from defective chimneys and heating devices. Have defective chimneys repaired and oil and gas heating equipment serviced and adjustments made at least once a year.

A larger and more powerful air-horn was installed at Weare Center which greatly increased the range of the fire alarm at this village. Additional remote-control switches were added and other improvements made in the fire alarm system.

Weare is faced with the problem of changing to a dial telephone system in the spring of 1959. With the dial system there will be no operator locally. Fires will have to be reported by telephone by dialing the fire department. This will connect you to the fire station and to so called "Red Phone" system in homes of various firemen. The rest of the department will be called by alarm horn or by dialing of their numbers. This system of red phones would be set up for the four companies of men and would consist of three or four phones in each village as well as a regular dial phone at each station. This system would cost about seven or eight hundred dollars a year at present rates. The red phones are for receiving messages only as you cannot dial numbers from them.

Some place or places where calls can be received night and day will have to be located and these phones ring when the fire department is dialed. Either the person answering or a fireman called by him will have to blow the fire alarm and dial men not reached by the alarm horn or the red phones.

The problem of being able to blow all the air horns from or more points is under consideration. Means of doing this by radio control are available and would no doubt be more satisfactory and less expensive than maintaining fire department alarm system lines between the fire stations. The elimination of the telephone operator who has for so many years acted as dispatcher for the fire department is going to affect a great change and it will be very difficult in a town such as Weare to replace the operator dispatcher system with one which will be as satisfactory.

New equipment purchased this past year included 400 ft. of 2½ inch hose, 2½ inch fog nozzles, airhorn, relays, transformers, and fittings for the fire alarm system.

A new stretcher or Collapsi-cot was purchased by the auxiliary and is a welcomed addition to our emergency equipment.

Four members of the department took both the standard and advanced Red Cross First Aid Courses at Manchester.

An emergency squad of twelve members was formed within the department. These men are receiving training in first-aid and methods of handling accident cases and other emergencies. This squad holds regular training sessions and has already been called to assist at several accidents.

During 1957 the department held monthly meetings and drills. The Firemen's Training School at Fitzwilliam was attended by ten members of the department.

Two of our trucks participated in the parade at Manchester.

Some work will need to be done on the dam at South Weare Village to maintain the pond there. This pond is an important water supply.

The department is trying to improve its service to the people and to keep abreast of the changing conditions in which we find ourselves. This is not an easy task and can only be done by concerted effort and co-operation.

Respectfully submitted,

GERALD H. HIGHT, Chief,
Weare Volunteer Fire Dept.

REPORT OF THE WEARE IMPROVEMENT COMMITTEE

Soon after the Annual Town Meeting of March 12, 1957, the Selectmen appointed Gordon Russell, Gordon Traver, Malcolm Dearborn, Charles Todd, and Alden Leeds, to act in conjunction with the Selectmen, as a committee to study the effects of the Hopkinton-Everett Control Project on the Town of Weare.

The first meeting was held at the Town Office, on the evening of April 4, 1957. All members were present, and we went over the many aspects of the situation confronting us all as a town. We know the people of East Weare will feel the greatest impact of course, and want to help them all we possibly can in every way. The Town, as a whole, will feel the effects also, but in a different way.

We had many more such meetings at the Town Office, before we met with the people of East Weare at the Grange Hall. At that time a general discussion was had, of what could be expected before, during, and after the building of the dams, dikes, and canal. We also had a public meeting at the Town Hall, with the Army Engineers of Boston.

While he was Attorney General, Mr. Gordon Tiffany became acquainted with flood control problems. He offered his services to the Town in an effort to deal with these problems, related to law, under Federal and State laws, as well as compacts between states. He obtained the advantageous services of Mr. Amsden of Hill Village, which had been flooded out by a previous control project. Mr. Amsden showed movies, and explained what happened in the Town of Hill, when their town was taken over. Mr. Tiffany also got Mr. Tani to return from Maine without expense to the Town, to explain what had happened in the Planning and Development Commission, to help the Town of Hill answer its problems. Mr. Tani worked for the Commission at the time the Town of Hill lost its village.

We have met with the committees of the towns of Hopkinton, Henniker, and Dunbarton, who have the

same problems. Some of us have discussed relocation of roads with the Commissioner of Public Works and Highways, Mr. Morton, who was very cooperative. In fact, we have attended all available meetings, where we thought information gained, might be of advantage to us in helping us solve our problems.

In summing up what we have learned, we recommend that the Town adopt Article (27) of the current Town Warrant. The construction of the Hopkinton-Everett Control Project is a much larger project than most of us realize, and will create such problems as, trailer locations, sanitation, excavations, and also school facilities for the additional children. I have listed but a few of the problems which invariably confront a community, when a project of this magnitude becomes a reality; no doubt, there will be many more.

In conclusion, I want to thank Mr. Tiffany and members of the committee for the time and effort they have so willingly given.

Respectfully submitted,

VERNON R. WOOD,
Chairman.

P. S. We may have more information at Town Meeting time.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Citizens of Weare:

I herewith submit my annual report as Superintendent of Schools.

Staff

We are pleased to note that all teachers of the prior year returned for the current year. In this day and age when the supply of teachers is limited, we are fortunate in having a capable teaching staff.

Enrollments

The schools opened in September with approximately the same number of pupils as of the prior year. In looking ahead to next September, the same will probably be true. However, the high school staff will be faced with a problem of accommodating an incoming seventh grade of some 32 pupils, replacing 16 current seniors. The high school building can not house more than 110 pupils adequately, and our anticipated enrollment in grade 7 through 12 for fall of 122 pupils will not only create a problem of numbers alone, but, with grade 8 and grade 9 relatively large units, the problem of finding adequately large classrooms will be present.

State Report

In January three staff members of the State Board of Education visited the High School. The purposes of the visit were twofold: the first, to clarify what action is necessary to qualify the Weare High School under the Minimum Standards for New Hampshire Secondary Schools, (which standards become effective Sept. 1, 1958), and secondly, to identify those aspects of the school plant and program which are in need of attention if Weare is to offer a comprehensive high school program.

The report of this committee lists the following as necessary to meet the minimum standards:

1. Three additional course offerings in Vocational and Practical Arts. (The development of a full program in Business Education is considered the most appropriate way to meet the requirements).
2. Three offerings in Music and General Art.
3. Reduction of the number of class preparations and teaching periods per teacher.
4. The release of the principal from his teaching duties to allow for a minimum of 25 per cent of his time for administrative and supervisory duties.
5. Because the present library facilities are inadequate, provision should be made for an area properly equipped for such facilities.
6. Substantial improvements should be made in the science laboratory.
7. Provisions should be made for a suitable guidance program, and teacher time made available for this service.

Budget for 1958-59

It is obvious that the above requirements and recommendations will demand a decided increase in our school budget. To add a teacher to our high school staff, and to add the equipment necessary for Business Education as well as in other fields, as recommended by the State Committee, will cause an automatic increase in our budget of some \$5,000.

As indicated above, the School Board's proposed budget for 1958-59 shows a considerable increase over the current budget. The addition of Business Education to our program, together with increases in salaries of our present staff, accounts for a large share of the increase. Each year the starting salary of teachers continues to rise, and it is only just and right that the salaries of the established teachers be increased accordingly.

Some years ago we followed a systematic plan of teacher salaries, giving recognition to the experience and training of the teacher. This fall a revision was submitted to the School Board and after due consideration, the Board took steps to adapt the schedule to our

staff. Certainly in this period of shortage of competent teachers, we must give due consideration to establishing a policy of adequate salaries to teachers or our schools and the education of our children will reflect the results.

The Future

Before closing this report I should like to return to the report of the Committee of the State Board of Education and the Minimum Standards for New Hampshire Secondary Schools.

The basic objective involved is to guarantee to all children in our state equal educational opportunities. For example, a pupil who chances to live in a community maintaining a small high school should not be denied the right to pursue a certain program in Commerce which would be undoubtedly provided in a larger school. The same is true in other subject fields as well.

It is not impossible for a community such as Weare to meet the basic requirements of the new regulations. It is, however, expensive and will necessarily reflect sharply in the financial needs of the School Board. In some instances it may be advisable to consider one of two alternate proposals: (1) to enroll the high school pupils on a tuition basis, or (2) enter into a cooperative plan with several adjacent towns.

It might be mentioned at this point that the Weare High School when built adequately met the needs of that time. However, the rooms are relatively small and do not lend themselves to accommodating a larger number of pupils and the current program needs. I question if we can meet these needs without constructing an addition to the building and also completely rearranging the interior.

Before one can take a definite position on the problem, the future physical needs of the elementary and high schools must be considered. If added space is necessary in the near future, the added cost of capital outlay, together with the already evident increases in program costs, may reach a figure beyond the ability of the community to provide.

At the moment I am not certain as to the most expedient road to follow. I do feel, however, that if we

continue to develop the program locally, the total cost **may** be in excess of our share of the expenses of constructing and maintaining a cooperative school with New Boston and Goffstown. This fact is obvious; we should not commit ourselves in any one direction until all possible facts are available. It is a problem which requires the serious study by all citizens of our town to ascertain which plan provides the best possible educational opportunities for our young people in terms of our ability to meet the costs thereof.

Respectfully submitted,

LEWIS F. FOOTE,
Supt. of Schools.

WEARE ANNUAL SCHOOL HEALTH REPORT

September 1956 — June 1957

I am submitting my sixth annual report of the Health Services given in the Weare Schools for the period of 1956-1957.

During this time Dr. Albert Snay of Goffstown examined all children in grades one, four, seven, ten, all new children, and all pupils engaged in competitive sports. Notices were sent to parents of children who had any condition which deviated from the normal. All pupils were weighed, measured, and given a vision and hearing test.
